# CITY MEETING FOR STONY BROOK

Decided by Vote of Almost Four to One to Authorize Issuance of Bonds to Amount of \$320,000 to Develop Water Supply There-Vote of 1902 Was Recinded and Decision Made to Have the Floating Debt of \$159,300 Bonded-Discussion on the Question of Reservoir Blocked by Delay.

After years of discussion over the water question, and months of heated debate as to the merits of the present situation, a special city meeting Wed neaday evening decided by a vote of almost four to one to authorize the sunce of bonds to the amount of \$320,000 for the development of the Stony brook proposition. It was a foregone conclusion that this would be the result of the meeting and the last special dity meeting having indicated most plainly what was wantad, Wednesday evening's session lasted but two hours, being cut down by the fact that there was no discussion upon the merits of the proposition. This was a surprise to the meeting, as a long talk had been anticipated. When the opportunity for the remarks on the motion were called for there was a pause and no one offered to speak. Evidently waiting for someone else to be heard. Dr. Harriman did not rise to speak until the vote had been called for and the voters were about to get their balots. He then spoke briefly, when the mayor considered it out of order of A. H. Boardman, although many asked to have Dr. Harriman continue, it being the feeling that he should be haard. It was expressed by someone in the hall, at random, that the vote would be for Stony brook anyway, and upon that Dr. Harriman felt willing to submit the matter, although he had intended to read the report in regard to the engineers investigation of that watershed. The vote was taken on that proposition by check list, but on the other three matters in the warning by viva, to be a supprise of the matter, although he had intended to read the report in regard to the engineers investigation of that watershed. The vote was taken on that proposition by check list, but on the other three matters in the warning by viva, to be a supprise of the matter, although the had intended to read the point of order of A. H. Boardman, although many asked to the vest of the country of the result of the

tion by check list, but on the other three matters in the warning by viva voce vote. The feeling scemed to prevail that while the discussion might have added some warmth to the meeting, the voters had come there with their minds made up and wanted Stony brook, which they secured.

It now remains for the council to approve the recommendation of the water board at a special or regular session, it being legal for them to do so now inasmuch as the vote of 1902, which was against Stony brook, has been rescinded.

After the meeting Mayor Thayer stated that he had not decided when he would call a special meeting of the court and might let it go until the next regular meeting. He said he intended to confer with the water board and learn their wishes in this regard.

At 8.05 o'clock Mayor Thayer called the meeting to order and the warning was read by City Clerk S. D. Moore. The seats were all filled and there were several hundred standing, but the attendance did not reach as large a number as at previous meetings.

The items in the warning are as fol-

ber as at previous meetings.

The items in the warning are as follows: (1) to vote and decide whether or not they will rescind a certain vote or resolution passed and adopted at a city meeting held on Jan. 21st, 1902, rejecting the Stony brook watershed, so-called, as a source of water supply for M. Farrell were marked at 7 o'clock of St. Patrick's church and provide for the entire outlay now and would put in the full amount now and provide for the entire outlay now and would put in the full amount now and provide for the entire outlay now and would put in the full amount now and provide for the entire outlay now and would put in the full amount now and provide for the entire outlay now and provide for the entire outlay now and eventual provide for the entire outlay now an

Mayor Thayer called attention to the fourth item in the call, which/concerned the taking up of the indebtedness now represented by certificates, I placed this in the warning, the mayor I placed this in the warning, the mayor said, because the charter commission recommended that all the floating debt should be bonded and not continued as a floating debt, and considered it best to do this now rather than call a special meeting for that purpose.

Resolution on Reacinding Former Vote, and In regard to the first matter, Corporation Counsel Famming presented the following greamble and resolution:

Whereas, The city of Norwich, in an it is not teasible. The following greamble and resolution:

Whereas, The city of Norwich, in an it is point the mayor questioned the privilege of Dr. Harriman to speak inamuel as the vote had been ordered. There were several criss of 'Hear the doctor.' 'Read it,' from about the hall. Albert H. Boardman rose to a point of, order and upon request of the chair of, and and controlled at said date by an additional development of the waterworks of the claim of the strength of the water of the country of the country of the country of the water in the water of the country of the country of the water that the present are additional development of the water of the country of the water that the present are additional development of the water of the country of the water of the country of the water water supply, and each further of the water water supply, and each further of the water of the country of the water of the water of the country of the water of the country of the water of the wat Resolution on Rescinding Former Vote, In regard to the first matter, Cor-peration Counsel Fanning presented the following preamble and resolution:

taking of steps to go ahead with the Stony brook supply and recommending it to the council. The council deferred action upon this until the city meeting rescinded its vote, the action of the city meeting in 1902 having been against Stony brook. It would not require another city meeting, however, the mayor thought, after the council acts in special meeting.

Upon the motion to rescind the vote of 1902, the mayor said: I am in doubt about the right of a vote by viva vece on this, but he stated he would try it and if the feeling is all one way he believed it would be safe. W. W. Ives said it was a viva voce vote in 1902.

said it was a viva voce vote in 1902. Vote Rescinded.

The motion was put and carried almost unanimously, there being but a sw noes, and it was declared a vote. Stony Brook Resolution.

A resolution presented by Corpora-tion Counsel Fanning concerning the establishment of the reservoir on Stony brook was as follows: Resolved, That the court of common

hazel mill, which uses about 35 feet of fall.

Situated just above the proposed reservoir is the Palmer pond and gristmill, now owned by the city. This pond at present holds about 25 million gallons, and it the future could be used for additional storage by cleaning the basin and raising the dam.

Our estimate of cost of developing this supply, exclusive of water rights, is \$304,000, which includes a pipe line from the dam to the 16-inch pipe on Washington square a distance of a little less than five miles.

We have recommended the use of a 24-inch pipe most of the way, and with this plan the pressure over the city would be better than we are having from Fairview and the summits would have better service.

Amount Changed to \$320,000.

Amount Changed to \$320,000. Corporation Counsel Fanning said that if there is no objection he would offer the resolution in a changed form and provide for the entire outlay now and would put in the full amount now and make it \$320,000. This change was not objected to and was made.

Dr. Harriman said Norwich had been agitating the water question for ten years, and when the vote was taken in 1502 it was not upon the merits of Stony brook, but as to whether the city would further develop the water supply already on hand. It was decided to increase Fairview reservoir. The history of the department for the past ten years shows the fallacy of that idea. Five or six eminent engineers have advocated Stony brook for years. Letters in the papers have told of a long tunnel through rock and the crop of stones at the brook, but he didn't believe eminent engineers would advocate any such plan if it is not feasible. He said he had a report to read.

Dr. Harriman Stopped.

Dr. Harriman Stopped.

The voting then proceeded at 8.40 and continued until 8.30, good order being preserved. W. H. Shields was among the last few to cast a ballot and received much applause as he did so. The counting of the votes was done by the registrars of voters and occupied fifteen minutes.

There were 489 votes cast, of which 385 were Yes and 103 No. The motion was carried and the resolution adopted. This brought forth some applause.

Third Proposition Voted.

In regard to the third proposition, Clerk Moore read the following resolution as proposed by Corporation Counsel Fanning, who moved its adoption:

tion:
Resolved. That the finance committee of the court of common council and the city treasurer be, and they are hereby instructed and directed to forthhereby instructed and directed to forthwith petition the general assembly of
the state of Connecticut, now in session, to grant to the city of Norwich
the authority to issue bonds to an
amount not to exceed \$220,000 in order
to meet the expense of increasing the
permanent water supply of said city in
accordance with the action taken at
this meeting; and
Resolved. That a copy of the record
of this meeting, certified by the city
clerk, he presented with said petition,
and the representatives from the town
of Norwich in the legislature and the
senator from this district are hereby
requested to co-operate with the city
officials above designated in the effort
to have said petition acted upon favorably and the suthority for such bond
issue granted.

Bonding of Floating Debt.
The fourth proposition was then take-

by bonding there is a slight benefit.

The following resolution was thempresented:

Resolved, That the finance committee of the court of common council and the city treasurer be, and they are hereby directed to petition the general assembly of the state of Connecticut, now in session, to authorize the city of Norwich to issue bonds to an amount not exceeding \$150,000, to take up the floating debt of said city; but no part of the proceeds of such bond issue shall be used for paying the balance of loan, now \$15,000, made on account of improvements in the gas and electrical plant nor for paying any sum borrowed during the present municipal year is anticipation of the city taxes.

Edward Kirby moved that action of the indefinitely postponed, sayin that the loans are now with local bank and it would be a goood thing to kee the money here and let the local institutions get the benefit of it. The me tion was put and only two voted it, there being a strong opposition.

Action on the resolution was the taken and almost unanimously carried, there being but one vote in opposition.

This completed the business of the state of the complete of the business of the complete of th

This completed the business of the session, and adjournment was taken at 10.05 o'clock. Throughout the meeting most of the crowd remained, and all seemed pleased that the question had been settled.

FUNERALS.

Miss Hattie J. Ballou. Miss Hattie J. Belleu.

The funeral of Miss Hattie J. Ballou was held from the parlors of Church & Allen on Main street. Wednesday afternoon. There was a large attendance of friends and relatives of the deceased, including people from Worcester. New London and Jewett City. The services were conducted by Rev. Robert F. True of the Third Baptist church. The flowers were numerous and beautiful, and fieluded a form from Givernaud Bros. mill on Mechanic street, where Miss Ballou was employed.

Burial was in the Preston City cemetery, where a committal service was read by Rev. Mr. True.

Miss Ballou died at the Backus hospital on Monday, following a long fliness. She was 43 years old and had for some time past lived on Union street. She was born in Leicester, Mass., December 15, 1867, daughter of Horace A. and Ellen Taft Ballou. The family moved to Greeneville and lived there until a few years ago, when they moved to Preston City, where Mr. Ballou died about a year ago. Miss Ballou was employed as weaver in the silk mill on the West Side and was a regular attendant at the Greeneville Bautist church.

She is survived by four brothers. Frank of Preston City, Frederick of North Stonington, George and Charles Ballou of Norwich, and three sisters, Mrs. Alice Wallace of Worcester, Mrs. Harvey Gore of Norwich Town and a sister in Westerly.

Themas Royston.

The funeral of Thomas Royston was held from the parlors of Shea & Burke on Wednesday morning. Relatives and friends attended the service at St. Patrick's church, where a requiem mass was celebrated by Rev. William F. Cavanaugh. The bearers
